Subject: EPA contact

Chris,

Given all that is happening at the Bridgeton/West Lake site, I've been asked by County management for an EPA contact name/number for inquiries that we receive regarding the radioactively contaminated West Lake Landfill. Should I provide your contact information or someone else's?

FYI: Leisa Zigman (who attended the 01/17/13 Public Meeting & is a reporter for KSDK, the local NBC affiliate) is promoting a 2-part series on the 'cancer clusters' associated with rad waste in the St. Louis area that airs on the 10:00PM news on Thursday 01/31/13. I'm unsure of the date/time that the 2nd part will air. Her original 01/17/13 story is at:

<http://www.ksdk.com/news/local/story.aspx?storyid=357470>

Can you please respond with a contact soon?

Thanks,

Mike
